LinkedIn: linkedin.com/in/nurudeen-abdulsalam-6b237b4b • Vercel: vercel.com/remotedevpros-projects

PROFESSIONAL PROFILE

Results-driven Technology Lead and Enterprise Systems Specialist with over 20 years of experience designing, deploying, and architecting software development, IT infrastructure, network engineering, cybersecurity, and digital transformation solutions. Demonstrated success operating across Oil & Gas, Telecommunications, Education, and Enterprise IT sectors. Combines advanced international postgraduate training in Internet Computing & Network Security (Distinction) with mastery in modern web development frameworks (React.js, JavaScript ES6+, Python, Django, REST APIs, HTML5, CSS3, Tailwind/Bootstrap). Skilled at leading cross-functional engineering teams, modernizing legacy systems, and delivering high-performance, business-critical applications.

CAREER HIGHLIGHTS & CORE STRENGTHS

- **20+ Years Enterprise Tech Leadership:** Proven track record driving end-to-end digital transformation, IT operations, and engineering teams.
- **Advanced Academic Distinction:** MSc in Internet Computing & Network Security (Distinction) from Loughborough University, UK.
- **Modern Full-Stack & Frontend Mastery:** Specialized in React.js, ES6+, Python/Django, RESTful Web Services, and cloud-native workflows.
- **Energy & Industrial Tech Expertise:** Deep domain knowledge in real-time drilling data acquisition, SCADA systems, and instrumentation.

EDUCATION

MSc Internet Computing & Network Security | Loughborough University, United Kingdom 2009 – 2010

Grade: Distinction (70%) — Specialized in advanced inter-domain routing, distributed systems, and network security.

MSc Information Technology | National Open University of Nigeria 2016

B.Tech (Hons) Computer Engineering | Ladoke Akintola University of Technology, Nigeria 1990 – 1996

CGPA: 3.36 / 5.00

PROFESSIONAL EXPERIENCE

Technology Lead | NURAB Computer Systems Aug 2021 – Present

- Direct digital engineering initiatives, cloud migrations, and full-stack web application development.
- Architect and implement responsive web applications, operational monitoring dashboards, and telemetry visualization tools.
- Lead technical solution design for enterprise client systems and modern educational technology platforms.
- Oversee CI/CD pipelines, cloud infrastructure modernization, and systems administration across hybrid Linux/Windows environments.

Manager, IT & Technical Services | Skangix Development Limited Jan 2013 – Aug 2021

- Spearheaded enterprise IT infrastructure operations, enterprise VPN deployments, VoIP communications, and software delivery.
- Engineered back-end business solutions and web applications using Python, Django, and SQL database engines.
- Directed cross-functional technical teams to deliver multi-site enterprise communication and infrastructure projects on schedule.

Internet Communications Engineer | Skangix Development Limited Jan 2012 – Dec 2012

- Designed, configured, and deployed secure enterprise networking solutions and broadband wireless infrastructure.
- Provided tier-3 systems administration, network security monitoring, and custom Python software automation.

Lead Engineer – Instruments & IT Services | Ciscen Limited Dec 2004 – Dec 2011

- Managed operational technology, drilling data systems, and satellite communication links across oilfield operations.
- Implemented enterprise network security protocols, network infrastructure, and real-time operational reporting tools.

IT / Instruments Engineer | Nigerian Logging & Support Services Ltd Jun 2002 – Apr 2004

- Supported high-frequency drilling data acquisition, hardware instrumentation, and operational technology monitoring networks.

- ICT Assistant Engineer | Microchannel Limited

Oct 2000 – May 2002

 - Administered Windows Server platforms, Active Directory infrastructure, DNS, DHCP, and enterprise network services.
- Systems Engineer | Qirad Computers Ltd

May 1998 – Sep 2000

 - Delivered network implementation, hardware maintenance, technical training, and client troubleshooting services.

FEATURED ENGINEERING PROJECTS

- Nurudeen Professional Portfolio Platform | React.js, JavaScript (ES6+), CSS3, GitHub Pages

2026

 - Designed and deployed an interactive developer portfolio featuring 3D tilt-card components, dynamic UI animations, and seamless responsive navigation.
- WeatherWise Application | JavaScript, REST APIs, HTML5, Dynamic CSS

2026

 - Built a live weather forecasting web application integrating third-party RESTful APIs, asynchronous data fetching, and dynamic UI themes.
- Smart Visitor Reception System | Python, Django, Bootstrap, SQLite/PostgreSQL

2026

 - Engineered an enterprise check-in platform streamlining visitor logging, real-time notifications, and security reporting.
- Tech-NovaX Responsive Platform | HTML5, CSS Grid, Flexbox, JavaScript

2026

 - Developed a high-performance modern corporate template demonstrating mobile-first layout design and WCAG accessibility standards.
- Real-Time Drilling Data Acquisition & Visualization System | C#, .NET, SQL Server, NI Measurement Studio

Legacy Project

 - Architected industrial-grade telemetry software for continuous rig data acquisition, operational visualization, and executive reporting.

TECHNICAL SKILLS & CORE COMPETENCIES

- Frontend Engineering:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, CSS Grid/Flexbox, DOM Manipulation, Single Page Applications (SPA), Mobile-First & Responsive Design, WCAG Accessibility
- Backend & Programming:** Python, Django, Node.js, C#, RESTful APIs, SQL Server, PostgreSQL, MySQL
- Tools & Workflows:** Git, GitHub, Vercel, VS Code, Postman, PythonAnywhere, CI/CD, Chrome DevTools
- Systems & Cloud Infrastructure:** Ubuntu Linux, Windows Server, Virtualization (VMware, Hyper-V, Oracle VM), Enterprise IT Infrastructure, Distributed Systems
- Networking & Cybersecurity:** Network Security, Cisco Routing & Switching, VPN Technologies, Active Directory, DNS/DHCP, Systems Administration
- Leadership & Management:** Technology Strategy, Agile/Scrum Collaboration, Multidisciplinary Team Leadership, Technical Documentation, Stakeholder Communication

CERTIFICATIONS & SPECIALIZED TRAINING

- Frontend Web Development Professional Certification — BeTechified Africa (2026)
- Cisco Certified Network Associate (CCNA)
- Microsoft Certified Professional (MCP)
- HP-Compaq Accredited Customer Technician (ACT)
- Specialized Technical Training: Information & Network Security (UK) | SCADA & Real-Time Systems Administration | Cisco Inter-Domain Routing | Advanced Mikrotik Wireless Networks | Enterprise VoIP Infrastructure

ATS KEYWORDS & PROFESSIONAL FOCUS

Technology Lead, Software Engineer, Senior Frontend Developer, Enterprise Solutions Architect, IT Infrastructure Manager, Network Engineer, React Developer, Full Stack Engineer, JavaScript Developer, Python Developer, Django, REST APIs, HTML5, CSS3, Cloud Deployment, Network Security, Cisco, Linux, Systems Administration, Oil & Gas Data Management, Technical Team Leadership, Digital Transformation.
